Why WeYouMe?

WeYouMe users and growth plan.

- 18 – 25, Instagram and Twitter users.
- New model of social media that rewards users, easily exchangeable to fiat currencies.
- Referral incentives for introducing new users.

WeYouMe revenue strategy.

- Advertising revenue.
- Membership subscriptions.
- Exchange trading fees.

WeYouMe is a new protocol that anyone can use and develop applications.

Why Now?

- WeYouMe is ahead of schedule on our development roadmap.
- Facebook and Twitter usage is stagnating across the world because users have had enough of their one-sided deal. People need a new platform that puts the user first.
- Steem has over 1 Million users, and leaves room for improvement to reach a mass market.

What's Happened so far?

- Whitepaper released on Steem.
- Crowdfunded by over 100 contributors.
- Initial Testnet launch originally planned for Q1 2019.
- Testnet version 1 released in October 2018, now in Version 3.
- Over 200 Testnet participants.
- Telegram community.
- First crowd voted Rebranding.

What next?

- Testnet version 4 release.
- Establish user acquisition partnerships.
- Seed round.
- Team expansion.
- Deliver on whitepaper development timeline.
- Implement and test new social features to drive virality.

Who are the Founders?

Harrison Mclean and Lyndon Gasking are the co-founders of WeYouMe.

Harrison has an extensive vision for the development of the WeYouMe platform over the next decade.

- Blockchain architecture expertise and cryptoeconomic design specialist.
- Entrepreneur with a passion for creating individual freedoms through technology.
- Determined to see that blockchain technology come to be used by the world to revolutionize the financial system.

Lyndon is very experienced in bringing new business models to market.

- Decades of experience in SAAS, AdTech, Marketing automation, Analytics, Web Intelligence, Social Networks, and Video Advertising.
- Founded and launched GetLunched.com and Zoetic.ai, two focused social networks.
- Built and managed teams that have created new revenue models for multiple successful start-ups in Asia/Pacific, Europe, and the US with successful exits in excess of \$500M.
